FAQ

How do I book an experience with a date?

Check the experience calendar for available dates. Select the day(s) you are interested in to proceed with your online booking.

Why don't I see any available dates for an experience?

Sometimes it is possible that there are no available dates for the chosen experience because there may be no more availability in the period concerned or we have not yet entered the season of activity of the experience.

Can I live the experience exclusively?

Of course we do! It is possible to purchase all our experiences exclusively. With this purchase method we guarantee an experience just for you and your group, which can be customised according to individual needs and requests. If, on the other hand, you would like to share it with other people, please note that our experiences involve small groups of up to a maximum of 12 people (depending on the experience). Should you be a larger group and/or have special requirements, please do not hesitate to contact us by making a specific request to the support email address. We will do our best to find a perfect solution that will satisfy you. To contact us simply start the chat, or you can write us an email specifying the name of the experience and your requests to connect@get2italy.com.

If necessary, do you organise transport and accommodation?

If you wish to organise accommodation or transport to the experience, you can make a specific request through our support channels. The Get2italy(G2I) team will do its best to help you according to your needs.
